

Ductile Iron Kitemark Manhole
Cover & Frame

CD-777-KMB

Product Overview

The CD-777-KMB is a ductile iron Kitemark manhole cover and frame with a 600 x 600 clear opening, overall dimensions of 663 x 663 and a depth of 40. It is BSI Kitemark certified to BS EN124 2015 and load-rated to B125. A unique corner design ensures the correct orientation of the cover in the frame, while its slide-out design reduces manual handling concerns. It is also available as a locking version.

Key features

BSI Kitemark certified to BS EN124 2015

Slide-out design to reduce manual handling concerns

Available as a locking version

Integral lifting key holes

Unique corner design to ensure correct orientation of cover fit into frame

Product information

- Manufactured from Spheroid Graphite Iron Grade EN-GJS-500-7 to BS EN 1563:2011.
- Finished with a temporary bitumen-based paint coating to BS 3416:1991.
- Product weight 34 kg, with a cover weight of 25 kg.
- Frame pressure bearing area of 1.6 N/mm² and a Polished Skid Resistance Value of 45+.
